Who We Are

The WPC is a joint US Army, Europe (USAEUR)
and US Air Forces in Europe (USAFE)
wargaming and simulations facility

WPC History

Pioneer of computer-assisted exercises, blending leading edge technology and operational expertise to provide joint and combined training worldwide

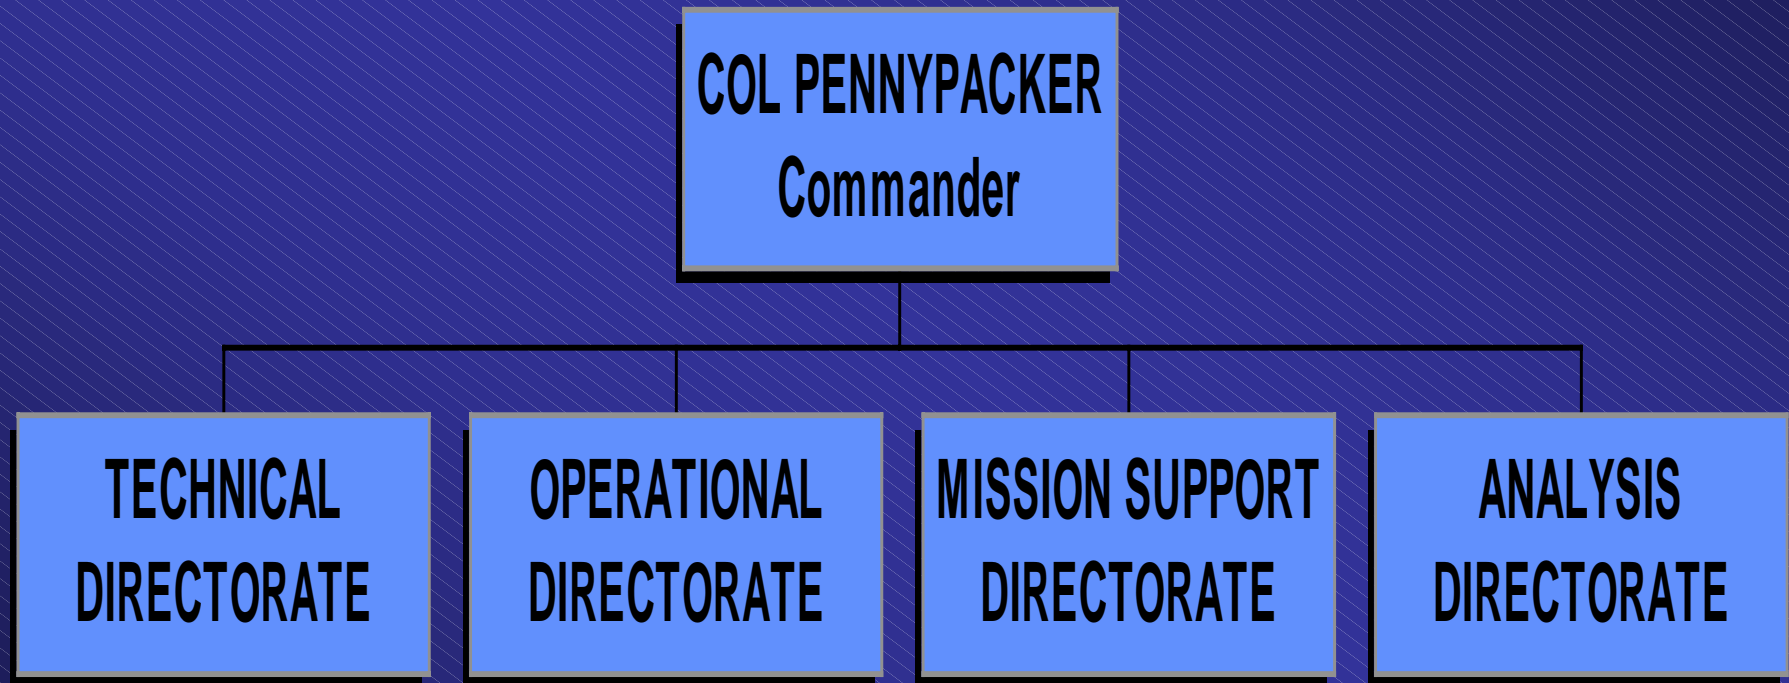

WPC

Mission Statement

Provide commanders and their battlestaffs,
a realistic joint and combined, operational
level training and exercising environment at
any location in the theater or worldwide to
maintain mission readiness.

WPC Organizational Chart

Exercise Factors

- ◆ CAXs increasing in complexity due to better C4I integration
- ◆ Early scheduling and planning is a must
- ◆ Planning cycle of 18 months (when possible)
- ◆ Sources for WPC exercise requirements

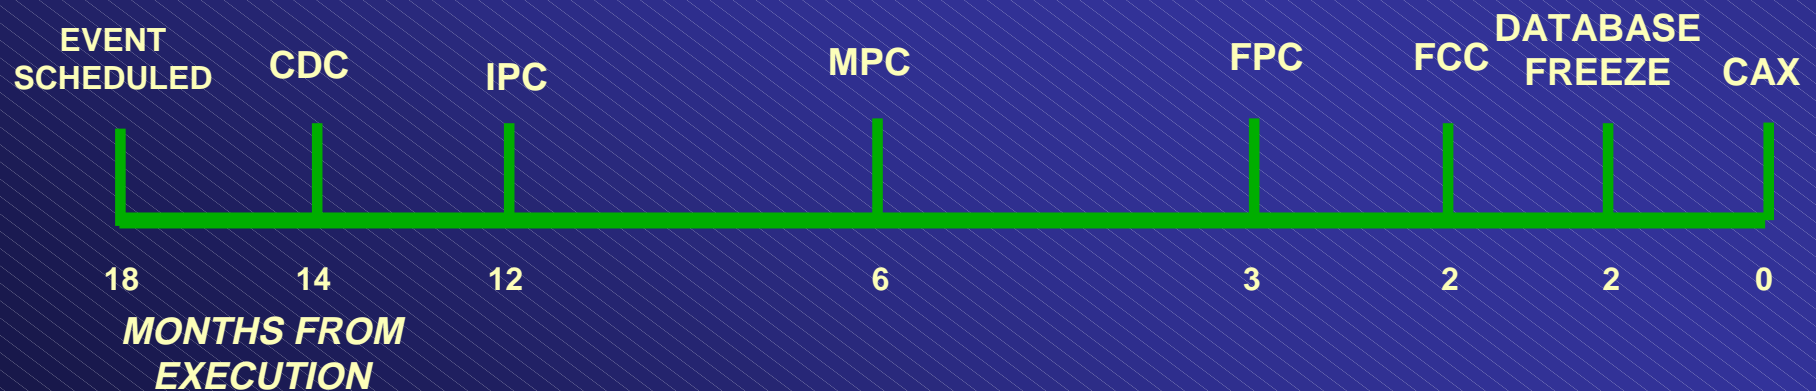

EXERCISES & REHEARSALS

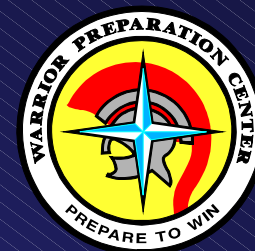

- ◆ Multiple exercises dictates a structured approach

Road To Execution

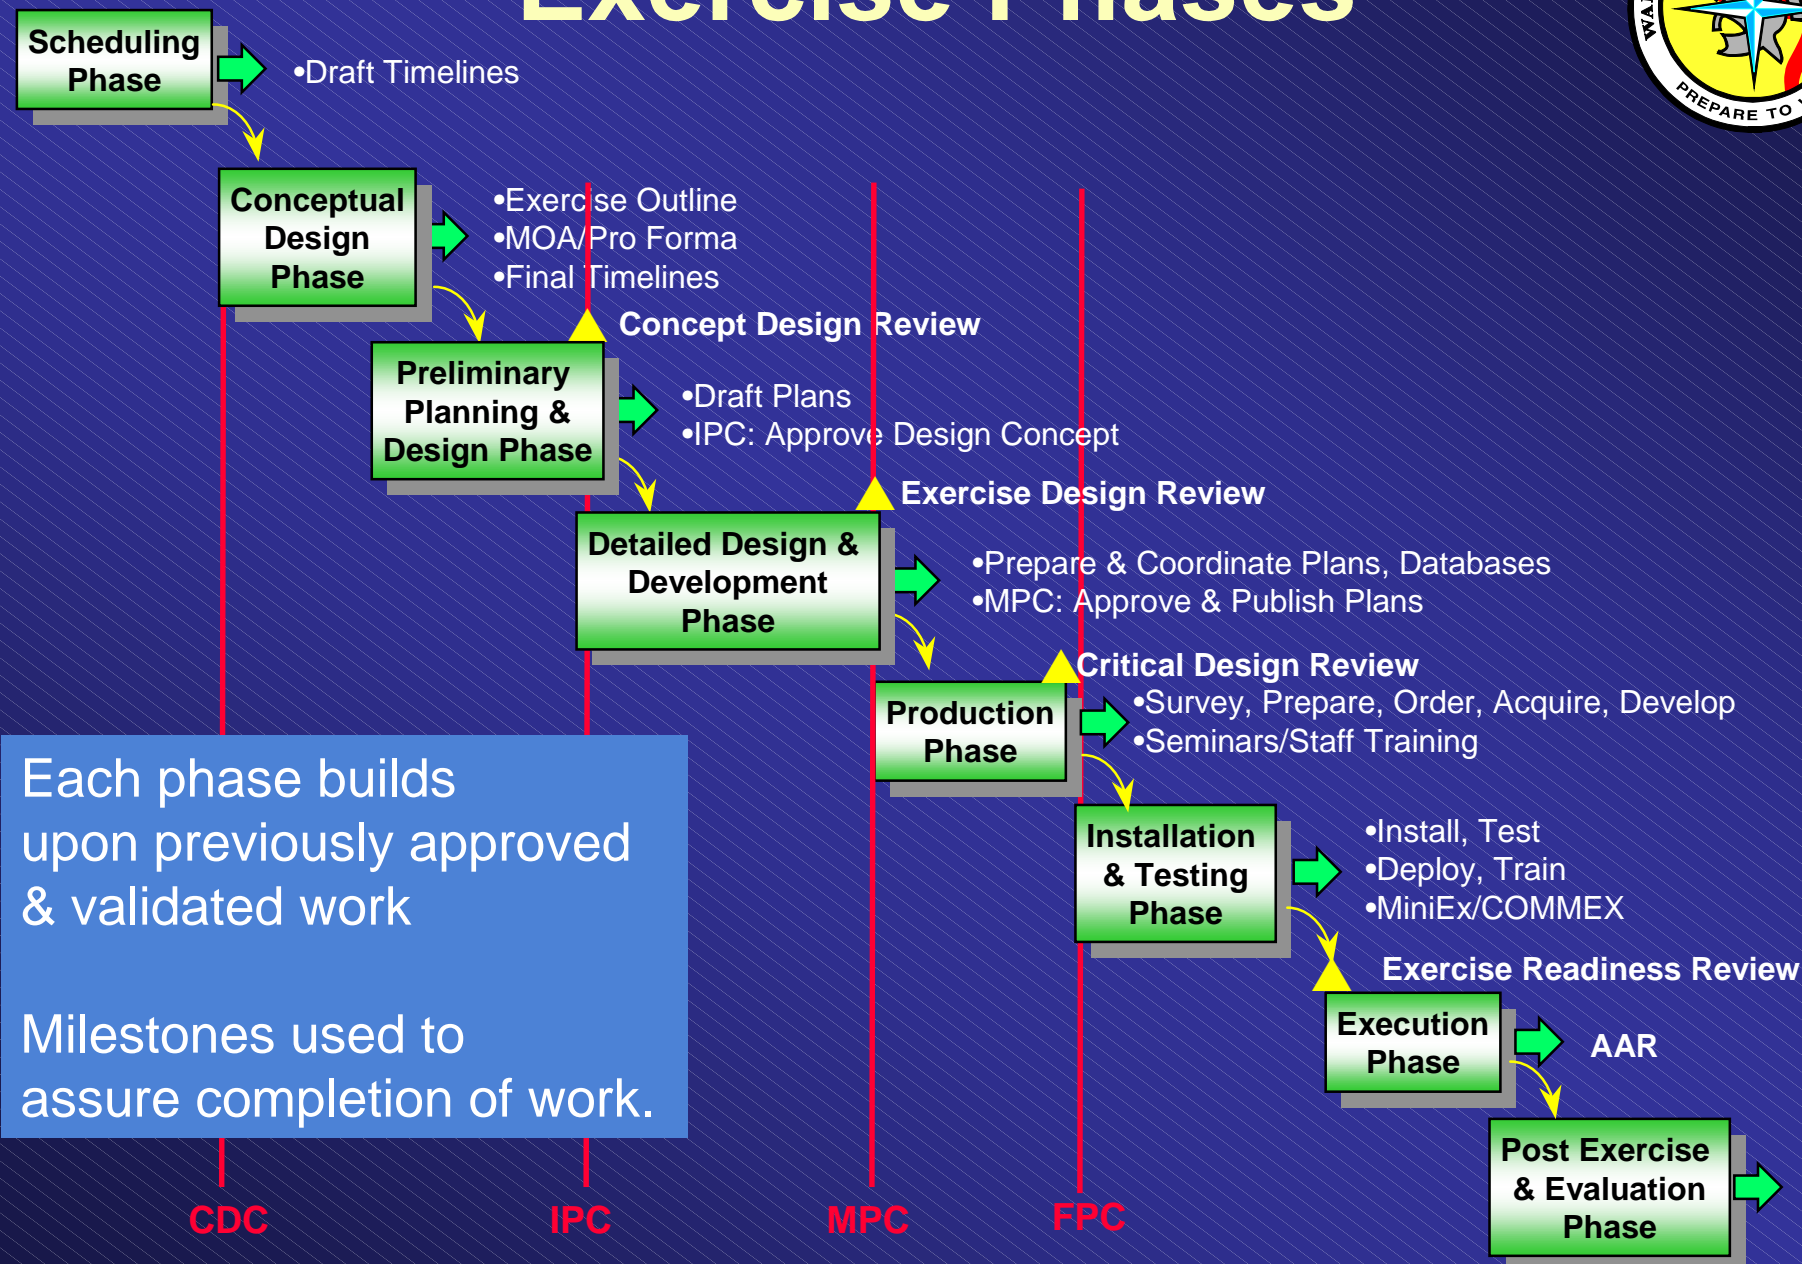

- ◆ Concept Development Conference (CDC)
- ◆ Initial Planning Conference (IPC)
- ◆ Main Planning Conference (MPC)
- ◆ Final Planning Conference (FPC)
- ◆ Final Coordination Conference (FCC)

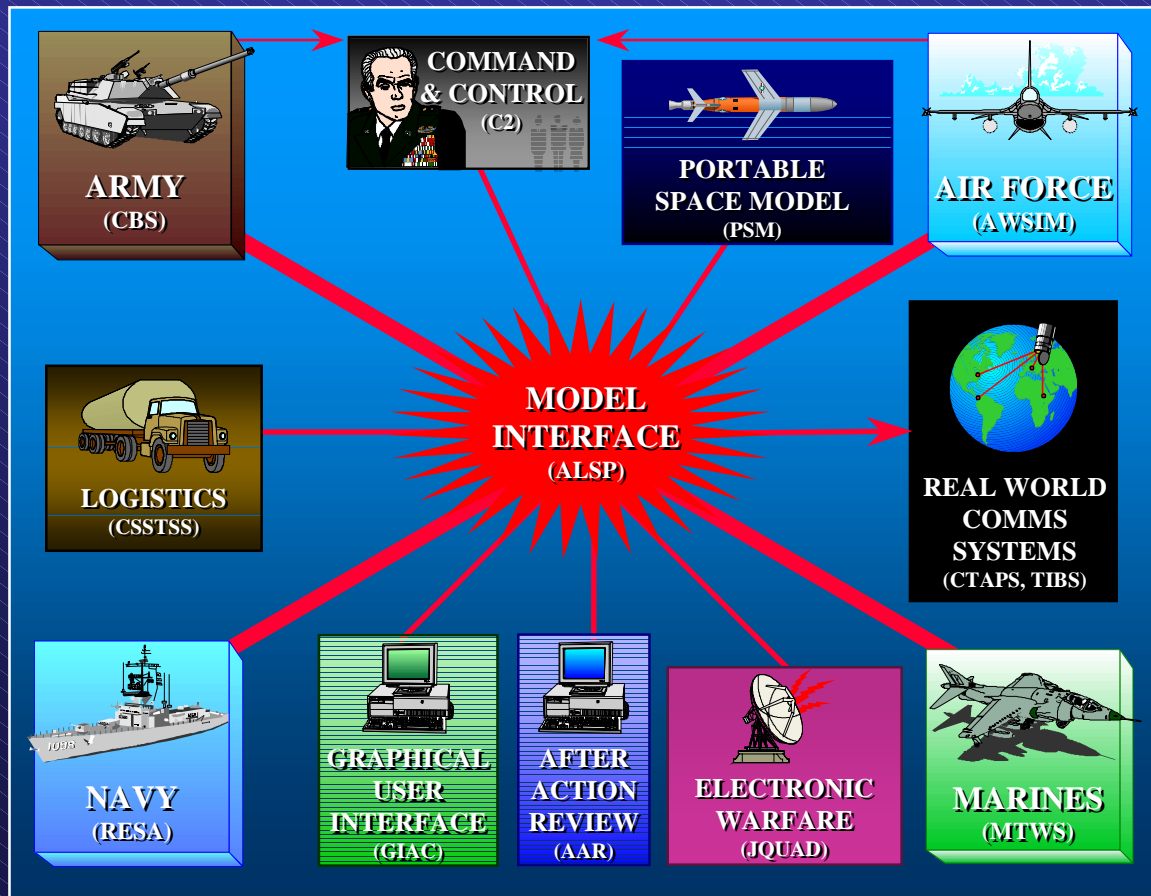

Exercise Phases

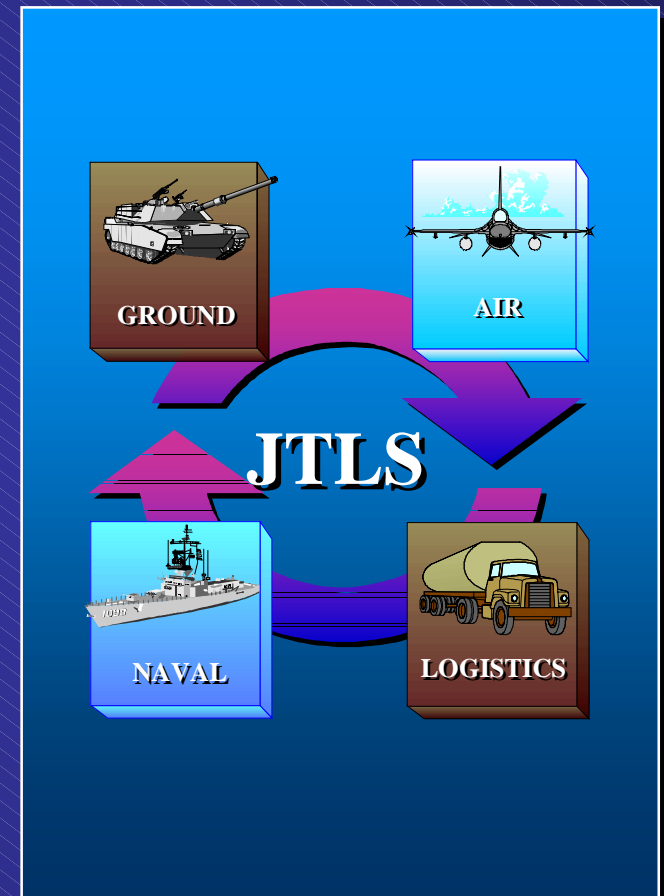

Computer Training Models

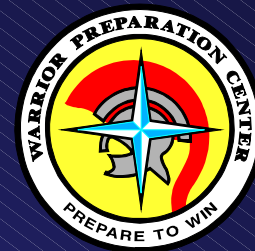

Joint Training Confederation (JTC)

JOINT THEATER LEVEL SIMULATION (JTLS)

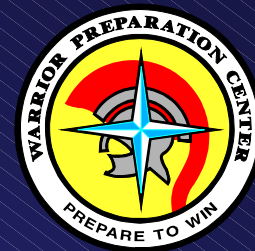

Computer Training Models

- ◆ Joint Conflict and Tactical Simulation (JCATS)
- ◆ Joint Deployment and Logistics Model (JDLM)
- ◆ SPECTRUM
- ◆ Medical Analysis Tool (MAT)

Initiatives

- ◆ Linked Training
- ◆ Changing Paradigms in Exercise Arena
 - Mission Rehearsals
 - Operations Other Than War
 - Force Health Protection Issues
- ◆ Introduction of new models for use in operations other than war
